WORK EXPERIENCE

Associate Software Engineer

Plural Technology

06/2023 - Present

Hyderabad, India

Roles and Responsibility

- Designed and implemented user interfaces for web applications, ensuring a seamless and responsive user experience.
- Collaborated with UX/UI designers to transform design concepts into interactive and visually appealing web pages.
- Utilized HTML, CSS, JavaScript, and ReactJS to develop dynamic and engaging user interfaces.
- Conducted thorough testing and debugging to ensure the functionality and performance of web applications.
- Actively participated in agile development processes, including sprint planning and daily stand-ups.
- Utilized Flutter framework to develop cross-platform mobile applications with a focus on performance, usability, and native-like user experience, catering to diverse user requirements and preferences.
- Worked collaboratively with cross-functional teams including designers, product managers, and fellow developers to translate project requirements into fully functional software solutions, fostering effective communication and synergy.

Software Engineer

Datapoint Info Solutions

10/2021 - 10/2022

Hyderabad, India

Roles and Responsibility

- Created Projects using Python with Machine Learning.
- Used the Django framework to implement Machine Learning Algorithms.
- Debugging applications to ensure low latency and high availability.
- Used Front-end Technology like Html, CSS, and Bootstrap Create a database using sqlite3.
- Used to train the machine learning models.
- Used different types of algorithms of machine learning (Classification and Regression).
- Used different types of python libraries (Pandas, NumPy, Seaborn, Tensor Flow, Scikit-learn, etc.).
- Also worked as a Corporate Trainer in Engineering Colleges, which was sent from my company.

EDUCATION

Bachelors of Computer Application

Siddhartha Degree College/ Hyderabad

07/2018 - 07/2021

GPA: 6.9

SKILLS

React.js

JavaScript

redux

HTML

CSS

Bootstrap

DOM

Express.js

Node.js

Flutter

Dart

Python

Django

Machine Learning

PROJECTS

Silverile(Project Management Tool)

- Implemented MUITables to enhance data presentation and user interaction, improving the overall user experience and accessibility of the application.
- Integrated artificial intelligence to dynamically generate test cases and tasks, automating part of the project planning process and increasing efficiency.
- Customized the Material-UI (MUI) download functionality to support JSON, CSV, and Excel file formats, allowing users to download project data in their preferred format.

DENSO

- Leveraged advanced JavaScript techniques to develop interactive and responsive user interfaces, ensuring seamless user interaction and engagement.
- Utilized HTML and CSS to structure and style web pages, focusing on creating visually appealing layouts while maintaining accessibility and responsiveness across different devices and screen sizes.
- Integrated third-party APIs and libraries to extend the functionality of the application, enhancing its capabilities and providing additional features to users.
- Conducted thorough testing and debugging to identify and resolve any issues or bugs, ensuring the reliability and stability of the application.

Fitos (Mobile Development)

- Identify and resolve bugs to improve the stability and performance of the application.
- Documented the process of debugging and fixing issues in the codebase.
- Implemented responsive design to support landscape, portrait, and tablet views.
- Utilized Flutter's MediaQuery and LayoutBuilder to adapt the UI based on screen size and orientation.
- Designed an intuitive and visually appealing user interface using Flutter's rich set of widgets and material design principles.
- Customized UI elements to match the branding and theme of the application.
